BTS eLearning

Why have it?

With work-related illness and injury accounting for nearly **30 million** lost working days every year, health and safety is much more than a compliance issue - it's a vital pre-requisite for operating effectively. The question is, how can you provide everyone with health and safety training that's effective, affordable and delivers measurable results?

We've got the answer! *BTS eLearning* is a next-generation eLearning course that provides employees with the knowledge and skills they need to stay safe and well at work.

Packed with sophisticated interactive exercises, discovery learning and automated movement, *BTS eLearning* is far more than just another health and safety course: it's a fully-featured learning resource that builds an in-depth understanding of key health and safety issues, and the practical steps that can be taken to deal with them.

Course features

Our e-courses use on-screen text, optional voice over and images to illustrate the main points. As you work through the course you'll be presented with basic exercises to guide you through the basics of the subject and check your learning. After each exercise you are given immediate feedback.

At the end of each course, a multiple choice test checks your knowledge and understanding. You can start a course straight away and at any time, providing you have access to a computer with an internet connection.

From a Management Perspective:

- Deliver consistent, high-quality health and safety training across your whole organisation.
- Avoid the expense, hassle and disruption associated with classroom training.
- Monitor usage and test results for compliance purposes and to measure return on your investment.

Deliver health and safety training that's engaging, stimulating and fun!

Five reasons to enrol on an eCourse - today!

- **You get value for money.** Competitively priced, eCourses take place on-site so there's no need to waste valuable time and money travelling to a course.
- **You can start straight away.** Online eCourses are just a few clicks away. There's no paperwork and no fuss.
- **Flexibility is built in.** Learn when it suits your business and your colleagues, with training designed to fit in around your work patterns and personal life.
- **You learn at your own level and at your own pace.** Individuals remain in control of their learning and can fill in knowledge gaps rather than cover ground they're already familiar with. On average each course takes 40 minutes to complete.
- **Team Managers or course buyers can track their employees' progress.** Our online eCourses have an inbuilt tracking system ensuring that employees remain on schedule.
